We have no file size limit. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Unfortunately, we can't make that part free. You can give this download link to your friends by mail or instant messenger. The cost of that data transfer is covered by your internet service or the data plan on your phone. Our service is completely free for everyone. It is also allowed to link to the download page from websites and communities. filehosting provides an easy possibility for you to send large files to your friends.
